The new speed limit is being proposed as part of the current development off the A611 at Top Wighay Farm. The works involve the construction of a new signalised junction between the Annesley Road roundabout and the traffic lights at Hucknall Road. The lower speed limit would give approaching vehicles more time to see the traffic lights and to stop when they are on red. The extension of the 50mph limit north-west of the Hucknall Road junction would also ensure that vehicles are approaching the existing signals at a lower speed. In addition to the new signalised junction there will be a new access road built off the Annesley Road roundabout. All the roads approaching the roundabout would be within the proposed 50mph speed limit.

Written objections (stating grounds and quoting ref. 4271) must be received by me by the **21st December 2020**.
