

RELOCATION OF EXISTING ROAD HUMP

LONGDEN TERRACE, MARKET WARSOP

NOTICE IS HEREBY GIVEN that the Nottinghamshire County Council in exercise of its powers under Section 90A - 90I of the Highways Act 1980 proposes to install a traffic calming hump at Longden Terrace in Market Warsop in the District of Mansfield

The hump is being installed to replace the existing road hump that is currently located outside number 35 Longden Terrace. The new hump would be located approximately 9 metres south-east of the existing road hump. The hump would be approximately 4 metres along the centre line and 75mm high at its highest point.

The road hump is being moved so that it is not across the new access road to the housing development located off Longden Terrace.

Any comments/objections (quoting ref: Longden Terrace) in respect of the traffic calming proposal must be received by me, in writing, by **21st July 2023**.
