Ordnance Survey 100019713.

New zebra crossing to be located on new flat top plateau.

- Notes:
- 1 - Bus friendly plateau. Total length of feature is 14 metres. Approach ramps are to be 2 metres in length. Flat top of plateau is 10 metres in length, with height of 75 mm above existing carriageway.
 2. Zebra crossing markings to consist of 2 zigs and 2 zags on both approaches.
 3. Build out on southern side to narrow crossing distance by 1 metre. The exact alignment will be determined on site.
 4. Signs shown on plan are new signs advising road users of the crossing.
 5. Buff anti-skid surfacing to be laid on both approaches.
