Dear Sir/Madam

**SHERBROOK ROAD, ARNOLD - TRAFFIC CALMING
PUBLIC CONSULTATION**

Via East Midlands, working on behalf of Nottinghamshire County Council, is consulting on installing traffic calming features on Sherbrook Road, Arnold.

The background to the scheme is that a number of people have been injured in road traffic collisions on Sherbrook Road. We noted that in a five year study period, between 2013 and 2017, there were four serious collisions. Three of these involved motorcycles and one involved a pedestrian.

As a result we are proposing to install six road humps, specifically sinusoidal profile road humps. These would be 75mm high and 4m long in the direction of travel.

As required under Section 90A - 90I of the Highways Act 1980, please find enclosed a copy of the Notice and plan with details of the location of the proposed road humps.

If you have any comments or objections on the proposed road humps then please contact us in writing using either the postal or e-mail address below. If your comments are in the form of an objection to the proposals and if they cannot be resolved, they will be reported through the County Council's procedures at the appropriate time. Any observations on these proposals should reach me by 27th August 2019.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Dave Collins'.
