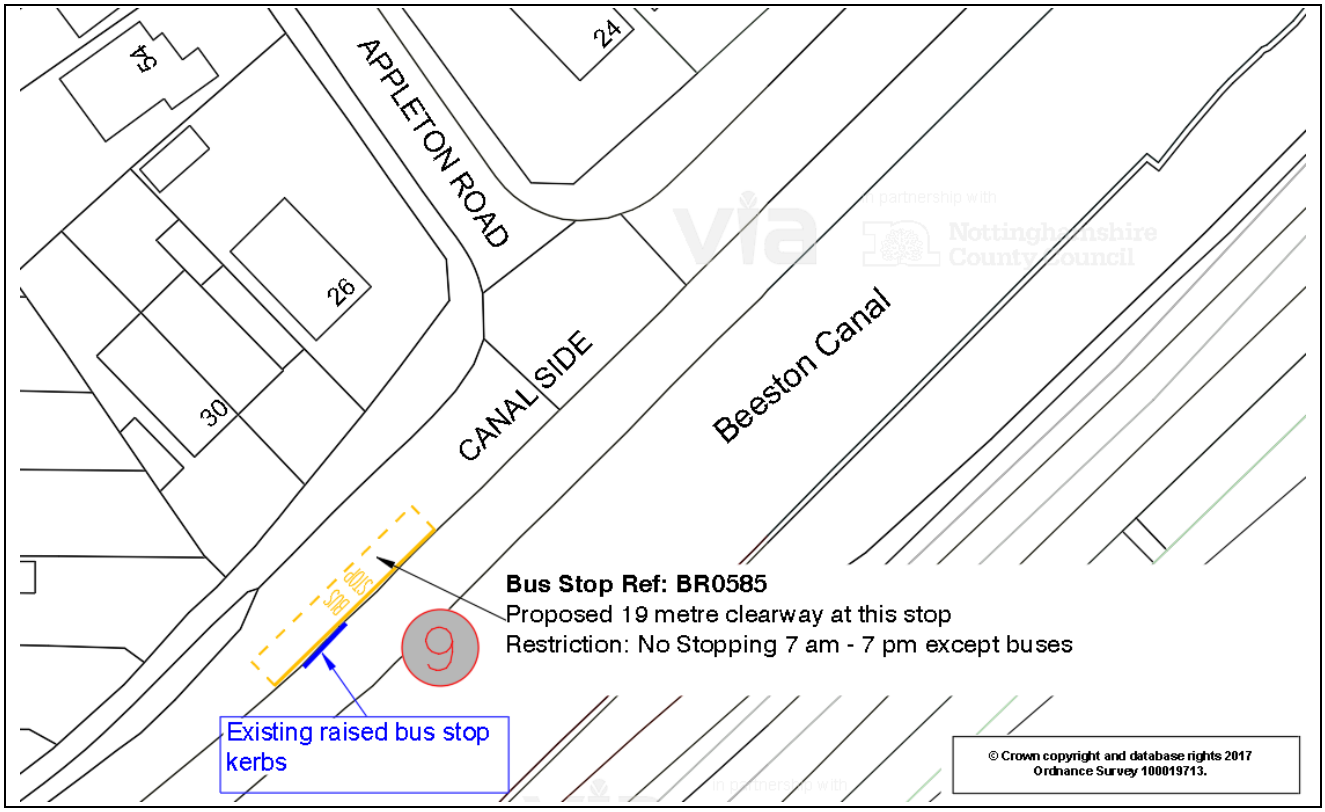
PUBLIC TRANSPORT IMPROVEMENTS
CANAL SIDE, BEESTON – (Bus Stop Ref: BR0585)



Nottingham City Council has identified the Southern Growth Corridor as an employment and housing growth corridor that would benefit from bus priority measures as well as cycle and pedestrian improvements.

As part of the on-going commitment to improve public transport in the County, it is the intention to make it easier for buses to stop in the Beeston area by introducing bus stop clearways at existing bus stops.

The clearways will prohibit cars from parking or waiting in the bus stop area and will be clearly identified with new road markings and signage. As a result, the bus stops will be accessible 7am – 7 pm for buses serving that stop.

The work proposed will, in summary, consist of:

- **Bus stop ref BR0585**
  19m Bus Stop Clearway: No Stopping 7am – 7 pm

Written objections either by letter or email to tmconsultation@viaem.co.uk (stating grounds and quoting the stop reference number and road name) must be received by the **18th August 2017.**
