Dear

**PARK STREET, SUTTON IN ASHFIELD – PROPOSED RESIDENTS’ PARKING SCHEME
(MON – SAT 9AM – 5PM) - PUBLIC ADVERT**

Via East Midlands is working on behalf of Nottinghamshire County Council to deliver highway services.

Nottinghamshire County Council have received requests to consider implementing a parking scheme on both sides of Park Street to provide parking for the properties 1-43 as they do not have access to any off-street parking. In November 2021, parking surveys were undertaken by Nottinghamshire County Council in response to a petition received from the residents which confirmed a large number of vehicles parked were non- residents.

In order to help alleviate these problems, it is proposed to introduce a Residents Parking Scheme which would prohibit parking by all vehicles except those displaying a valid parking permit. The potential scheme would be in operation Mon – Sat 9am – 5pm.

The proposals are shown on the attached drawing H/JW/4310/01.

Before proceeding further, I wish to consider the views of residents, businesses and organisations who may be interested in this matter. Any observations on these proposals should reach me in writing, either by letter or email, by **1st September 2023**. If your comments are in the form of an objection to the proposals please clearly state this and the reasons for your objection. If the objection cannot be resolved, it will be reported through the County Council’s procedures at the appropriate time.

Any details you provide may be shared with Nottinghamshire County Council as appropriate. If you’d like to find out more about how we use your data, please see our Privacy Notice: www.viaem.co.uk/privacy-notice-for-the-public/.

The introduction of a residents’ parking scheme would allow residents to continue parking on street, but would prevent all day commuter / shopper parking. Parking by residents and their visitors would be controlled by permits. However, a permit would not guarantee a space directly outside a person’s property and at busy times may not guarantee a space within the controlled area.
